BLK 3006/300/308 **BOLT ACTION**

BLK's new generation Bolt Action Rifle combines excellent precision and durability. Its specially designed bolt action mechanism provides superior reliability in shooting while offering easy portability with its lightweight and durable materials. It is a superior performance rifle model, so named because it is loaded and fired by pulling the barrel backwards. Its ergonomic design and high-capacity magazine maximize the comfort of the users while offering the opportunity to fire more shots. Different 308WIN /30-06SPR/300 WIN MAG barrel options adapt to various usage scenarios. It is ideal for long-term use as it requires less maintenance.

BLK1911 PISTOL

The legendary 1911 has been redesigned to meet the needs of the times and is now known as the BLK1911. This high-tech pistol stands out with its unique design, durability and now different grips, patterns and camouflages. The BLK1911 shows its power with 9x19 mm and 45 ACP ammunition.

Inspired by the classic 1911 design, this pistol model gains a modern look with different design touches by BALILKLI ARMS. The revamped grips, patterns and camouflages give them the chance to take full advantage of today's technology. Thus, the BLK1911 becomes a pistol model that stands out both in a nostalgic context and by meeting the requirements of the era. In addition, the BLK1911, provides an experience beyond the era with the new sport models.

A soldier in tactical gear, including a helmet with a microphone and a vest with various pouches, is holding a BLK 95 submachine gun. The soldier is positioned on the left side of the frame, looking down at the weapon. The background is a blurred outdoor setting with some debris.

BLK 95 SUB MACHINE PISTOL

The BLK 95 has a body made of light alloy materials, which ensures portability and ease of use. Thanks to its automatic fire capabilities, it can fire multiple rounds consecutively with a single trigger action. The use of a 9mm magazine system makes it possible to quickly change ammunition. Furthermore, a range of safety features, sighting systems and accessory mounting points allow users to use the weapon more effectively and precisely.

UNIQUE OVER UNDER

Introducing the UNIQUE, BALIKLI ARMS over-under shotguns, now available in Aluminum or Steel receivers. The UNIQUE model showcases meticulous craftsmanship with a precision-engineered Aluminum or Steel receiver that delivers superior performance. On some optional models, the shotguns's aesthetic appeal can be enhanced by highlighting its exquisite acid-etched engravings, case hardening or gold inlays.

The UNIQUE model stands out with detailed engravings on the receiver and forend, enhancing its overall visual appeal. The receivers are precision CNC machined, while the barrels are deep-drilled from 4140 Steel, ensuring durability and reliability. Equipped with a Single Selective Trigger and Fiber Optic Front Sight, the UNIQUE model offers a superior shooting experience. A variety of camouflaged models are also available to appeal to different preferences.
